

## KWHOTEL ONLINE CALENDAR

### ATTENTION:

There are three variants of this KWHotel calendar.

Please have a look below to see the differences:

- **VARIANT 1** - Calendar will display a room group availability, i.e. Single room, double room, etc.
- **VARIANT 2** - Calendar will display availability of a single room / apartment by showing either VACANT or OCCUPIED
- **VARIANT 3** - Calendar will display availability of a single room / apartment by showing either VACANT, OCCUPIED or NO VACANCIES.

### DOWNLOADING

- 1) Log to kwhotel.com -> enter the "Downloads" tab, where you will find the calendar files;
- 2) download the files and unload them onto the server, which hosts your website.

### CONFIGURATION

- 1) Enter the server information in the file `calendar/config.php`
- 2) you may change basic settings, such as language, color, room symbol etc.;

### IMPLEMENTING

Having deployed the script on your website, you can place the calendar anywhere, using one of the codes below:

- PHP

```
include('calendar/index.php');
```

- HTML - Once you copy the below code, please delete a dot before the "iframe"

```
<.iframe style="border:none" width="480" height="320" src="/../kwhotel/index_cal.php">
```

```
Twoja przeglądarka nie obsługuje ramek</iframe>
```
